Mines in My Region

Information on Specific Mining Projects in Alaska

There are countless mining exploration projects going on in Alaska as well as many others in various stages of development. Here is a map that shows some of the mineral prospects in Alaska (http://www.nunat.net/DNR_min_prospects.pdf). Below is a list of mining projects by region with web links to sites that give information about these projects. If you know of other mining projects or websites that should be included here, please email nunat@zendergroup.org.
